SUMMARY.

Frontend Developer with experience designing, building, and maintaining responsive webpages. Extensive knowledge of user psychology, proficient with CSS, JavaScript, React and modern frontend technologies to improve the development of user-friendly applications.

Most proud of building a **Read-book app**: which is an online react project I worked on specifically for book lovers, eradicating the stressful era of packing books around, by simply reading your favorite books from the app. Actively applying for entry-level job roles for a frontend developer, or React Developer. Striving for new opportunities and challenges that will broaden my skill set.

HANDS-ON PROJECTS.

Read-book app

- This is an online simple react book application for book lovers using React hooks, Axios, React context API, and some external API sources.
- Readers can add books they love to their favorite lists and remove from favorite too.
- Solves the problem of developing youths with intentional reading habit.

Recipe app

- Built a full recipe React application, with search functionality, showing popular, vegetarian, and trending recipes and instructions.

CORE COMPETENCIES.

- React: React-router, C.R.U.D Operations, state management tools as Redux and Context API, use of frameworks as chakra-ui, material-ui.
- Web performance: Building websites that perform well and fast on the user's end with image optimization.
- Designing and creating websites using HTML, CSS, and designing websites with JavaScript thereby improving mobile user experience.

- Responsive design: Using media queries, clean CSS codes, and CSS frameworks to make websites accessible on all devices.
- Version Control and other Developer tools: Controlling changes in source codes using Git and collaborating with teams without stress and perils.

STRENGTHS .

- **Eager to learn new skills:** As someone that is starting out, I am always striving for new ways to grow and improve my new skill set.
- **Collaborative:** Attending Stutern Software Engineering training taught me everything there is about being teammates.
- **Not afraid of failure:** Strong supporter in the mantra that lessons are taught from mistakes
- **Time Management:** I constantly devote time to schedule my week and allocate the workload by days, so that I can simultaneously meet deadlines while maintaining my well-being.

EXPERIENCE.

STUTERN.

Frontend Developer intern | 2022.

- Worked with team of 5 web developers and delivered end-to-end solutions.
- Used HTML5, CSS, and JavaScript to clone designs of complex page layouts while adhering to code standards.
- Collaborated with teammates and updated application versions using Git.

TRUELANCER.COM.

Freelance Technical / Content Writer | 2022.

Provided detailed study contents ranging from technology, to psychology for learners which gave them better insights toward work, and life.

EDUCATION.

STUTERN.

Software Engineering | 2022.

Michael Okpara University Of Agriculture, Umudike.

Bachelor of Science | 2017-2022.
